

**Candidate Pledge to
Protect Schools, Children, and Families
from the Federal Title IX Plan**

Title IX is the federal law designed to stop sex discrimination against boys and girls in schools. But President Biden has proposed a new Title IX regulation that would redefine sex to include “gender identity.” This would have devastating effects on schools, children, families, and more.

When elected to office, I pledge to work to assure that:

- 1. Schools and other organizations shall utilize the traditional binary definition of “sex.”**
- 2. Schools shall obtain prior consent from parents for any use of gender pronouns, or gender-dysphoria counseling or treatments.**
- 3. Parents shall have the right to examine and opt their children out of any school curricula dealing with sexuality and gender identity.**
- 4. Schools shall only allow biological females to participate in women’s sports, enter women's locker rooms, and use women's bathrooms.**
- 5. Schools shall adhere to Constitutional due process procedures to protect falsely accused males from Title IX complaints.**
- 6. Schools and other institutions shall fully uphold Constitutional free speech guarantees.**
